Introduction

Ecology & Habitat Management Ltd. has considered the impact on the environment of its services, activities and undertakings to assist clients to comply with ever-increasing environmental demands in addition to minimising the environmental impacts of their own services, operations and products.

The responsibility for compliance sits with the company directors and is delivered EHM staff.

Statement of Intent

Ecology and Habitat Management Ltd.

Our environmental commitments are to:

- Consider the impact of climate change on our operations as part of our planning.
- Comply with all applicable environmental and wildlife legislation, codes of practice, regulatory controls and business requirements.
- Minimise pollution or nuisance that may be caused by our activities.
- Protect local habitats and ecosystems that can be affected by EHM operations/ facilities.
- Use energy and natural resources efficiently and to reduce underlying consumption where possible.
- Encourage the reduction in CO2 emissions incurred from employees travelling on EHM business.
- Continually improve our environmental performance through the setting and review of realistic and achievable objectives.
- Provide appropriate resources for the implementation of this policy in line with the context of the business.
- Work with relevant interested parties/stakeholders to implement this policy.
- Encourage selecting of materials and products that have a low or negligible environmental impact
- When commissioning and undertaking projects (including capital works schemes, other projects and maintenance schemes) likely to result in disturbance or other impact to land and/or water, endeavour to avoid damaging wild species and their habitats and, where appropriate, create opportunities for biodiversity enhancement.
- Collect and use significant biodiversity information, to inform planning and operational activities.
- Regularly review policy and processes.
